YOUR FEEDBACK MATTERS

Client feedback is the backbone of any successful business. It's essential for an organization to know what their clients want and use that information to improve their products and services.

A recent study by Gartner found that client feedback is the most valuable source of data for organizations. The study also found that companies with a client-centric culture are more likely to achieve higher levels of client satisfaction than those who don't have such a culture in place.

Thank you to Mrs Ina Muller who has kindly agreed that we share her feedback with you.

Beste André en Personeel,

Graag wil ons, ons hartlike dank en waardering uitspreek met die hantering van ons eis vir die ongeluk.

André, jy het jou voorwaar omring met baie bekwame, vriendelike mense.

Dankie dat die eis so gou afgehandel is, met baie min onderbrekings of probleme.

Dankie aan Drian in Pretoria, maar veral Meagyn daar by julle.

Sy is ywerig, vriendelik, hou mens aanhoudend op hoogte van sake, en gaan uit haar pad om alles vlot te laat verloop.

Sy het alles professioneel gedoen, en ek glo als het so goed verloop as gevolg van haar wat uit haar pad gegaan het om inligting by die bank en ander te verkry.

Ons is baie dankbaar vir alles".

STRANGE BUT TRUE STORIES OF FUNNY CAR INSURANCE CLAIMS

I was on my way to the doctor with rear end trouble when my universal joint gave way causing me to have an accident.

I knocked over a man. He admitted it was his fault as he had been run over before.

I collided with a stationary tramcar coming the other way. I consider that neither vehicle was to blame but if either were to blame it was the other one (Irish).

Car had to turn sharper than was necessary owing to an invisible lorry.

To avoid a collision I ran into the other car.

The pedestrian had no idea which way to run, so I ran over him.
